FILE GUIDELINES

File Guidelines

- All file formats should be sent right reading in original/native formats.
- All text should be converted to curves, paths or outlines depending on the application used.
- Files should be CMYK or Pantone spot color specific.
- Send layered file versions if available.

Preferred Vector Programs: Adobe Illustrator CS2 or Acrobat PDF with editing capability enabled
Pantone colors will be converted to the closest CMYK match in Vector files.

Preferred Raster Programs: Adobe Photoshop .psd, Acrobat PDF, or Jpeg.

Resolution set at 200 dpi at final size.

Raster documents should use a color setting for Photoshop 5 Default CMYK.

Sending Files to GV Sign

- Enclose a color hardcopy of the file. * Orders without a color reference or Pantone (PMS) colors identified will not guarantee color in the final product.
- Please include the following information with your files:
 - File name
 - Your company name, address and phone number.
 - Contact person

Email art to: artwork@grassvalleysign.com
